

The ears of the LORD

are open to our cry [prayers]
from Psalm 34.15

Did you know?

- The pinna (the part of the ear that can be seen) collects sound waves and channels them into the ear canal.
- As they travel down the ear canal, sound waves are amplified (made bigger) and make the ear drum vibrate.
- The auditory nerve sends these vibrations to your brain to translate.
- The liquid in your middle ear helps you balance.

Look up 1 Kings 10 v 1-10

The Queen of Sheba had heard reports of King Solomon in her native land. Summarise what she had heard about him:

She was intrigued, and her curiosity was so great she set out on a long journey to find out if it was true. At the close of her visit what was her assessment of the report she had heard?

Comparing this event with how we hear the Gospel news, answer these questions.

- 1) What is our first reaction when we hear about our sin problem?
- 2) Who puts it in the heart of a person to want to find out for themselves whether the Gospel is true?
- 3) When a person is given true faith in the Lord Jesus, what do they say about Him? (see v 7)

Read **Job 42 v 5-6**. How did he see himself when he realised personally how great the Lord is?
