

Your Word is a lamp to my feet

Psalm 119 v 105

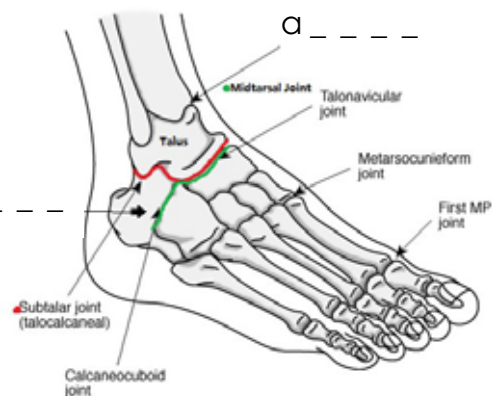

In this diagram of a foot, fill in the two missing parts.

Describe what you think it would be like if you were unable to walk.

.....

Read 2 Samuel 9 to find out what happened to Mephibosheth when he met King David.

- 1) Describe Mephibosheth's circumstances before he met King David:
- 2) Why might Mephibosheth have been frightened of meeting King David?
- 3) What was David's motivation for being so kind to Mephibosheth?
- 4) Why do we not deserve any kindness, or mercy, from King Jesus?
- 5) What has He done to obtain salvation for sinners?

One of the signs that the Lord Jesus was indeed the promised Messiah was the fact that He was able to heal people. It was a fulfilment of a prophecy in Isaiah 35 v 5-6. If He can heal physical bodies, He can also heal us spiritually if we ask Him.

Acts 3 vs 1– 26 tells us about when Peter healed a lame man. This was kind of Peter, but the Lord Jesus and His disciples didn't heal just for kindness.

- They were showing power. Whose power does Peter say he is using in the passage?
- They were giving a picture. What do we need healing from?
- They were showing how to come to Jesus. The man asked for help and came knowing that God could help him.

We know that God can heal us. But have we asked Him to?

Your Word is a lamp to my feet

Each foot has –

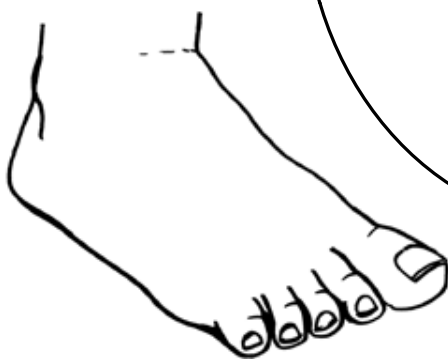

Psalms 119 v 105

- 24 bones
- 14 joints

Our feet carry us miles.
Without them we could
not w _ _ _ , r _ _
or j _ _ _ .

**Thank God for
our feet**

Missing words:
beautiful
run
walk
jump

Draw a picture of
Mephibosheth who
could not walk

FEET

Two little feet to
walk in His ways

✓ Tick the good things we can use our feet for

✗ Cross the bad things

Running

Kicking someone

Walking the dog

Guiding a blind person

Stamping feet in anger

**Jesus healed many lame people. When we become Christians we want
others to hear the Gospel of peace with God – the Bible says those who carry
this message have b _ _ _ _ _ feet.**
